

KinderSign – Change the Display Language

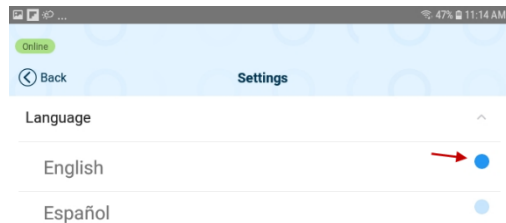

Providers and Sponsors can each use the KinderSign app in English or Spanish individually. The tablet's opening screen defaults to the language selected by the last user.

A Sign in to KinderSign using the identification method selected by your agency.

B From the **Activities** screen, tap **Settings**.

C Tap the radio button corresponding to the desired language.

D When you finish, KinderSign automatically returns to the previous screen and the text appears in the selected language.
