

KinderSign – Download the App to an Android Tablet

Install the KinderSign app on an Android tablet from the Play Store. Once it is installed, the tablet is ready to be registered.

- A** Tap the **Play Store** icon on the tablet home screen.

- B** In the search field, type **KinderSign Louisiana**, then tap the search icon. 

- C** Once the KinderSign app is found , tap to select. Next tap , and finally tap **Install** to download. Tap **Accept** to initiate download.

- D** When the download is complete, tap **Open**. *KinderSign by KinderSystems* appears on the screen and your tablet is ready to scan.

- E** Depending on the tablet, you might need to tap **Continue** and proceed to the **Complete account setup** screen. If asked for credit card information, tap **Skip**.
Note: You are **not** required to provide credit card details.

- F** A message flashes indicating *KinderSign by KinderSystems* has been added to the home screen.

- G** Tap the **Home** button  on the lower portion of the tablet to return to the home screen. Locate the KinderSign icon  and tap it to open the app.
